

A Water Committee meeting was held on Tuesday, October 26, 2021 at 10 a.m. in the Cuba City Hall Council room. The Water committee would like to make the following recommendations for approval at the November 2, 2021 council meeting.

Water Committee Recommendations

1. To recommend that Archer move under contract with the city for the Medows Subdivision Loop project that will increase fire protection to the Medows area that is needed due to the Barnett Park growth. The cost is approximated to be \$300,000 and an urgent need. The project will be bid out and may take longer than the FY 2022 to complete.
2. To recommend that Archer move under contract for engineering services only for the Mapleshade-Northwood Loop and Monroe-Myrtle Loop. This does not include the project itself. These two projects will have possible grant funding to aid in the completion.

Kevin Copling, Alderman – Water Committee
